

E-Risk360

WHO WE ARE

At E-Risk360, we are your Risk Management experts. Our auditing process helps businesses to identify risk and understand what their obligations are. Our goal is to ensure the management plans are integrated and seamlessly actioned into their business operations for sustainable success.

Our belief

- Operate in a socially responsible fashion
Listening to our clients challenges
- Understand our clients requirements
- Engage with clients at all levels, from senior leadership, operations, through to people on the factory floor
- Understand stakeholders, the perspectives and managing expectations
- Adopt a continuous improvement philosophy, so we can learn and innovate
- Implement emerging technologies, in a responsible, ethical and sustainable manner

SUPPORTING YOUR HOSPITALITY, TRAVEL & LEISURE BUSINESS

We help hospitality, leisure, and travel businesses address the real impact of their operations. We focus on harm minimisation by aligning tourism practices with Environmental, Social, and Governance (ESG) commitments, cultural sensitivity, and regenerative tourism principles, ensuring businesses achieve their objectives while fostering meaningful community engagement and reducing resource dependency.

Our areas of expertise include:

- Ecotourism and/or destination certification support to meet critical Environment, Social and Governance standards.
- Bespoke risk assessments and harm minimisation strategies.
- Risk management systems tailored to hospitality and travel operations.
- Workforce training on harm minimisation and operational responsibility.

MINIMISE HARM & REDEFINE TOURISM PRACTICES

Environmental Protection and Sustainability

Our risk assessment identifies and mitigates risks that could harm natural habitats and ensure sustainable practices that protect the environment

Customer Safety

Our risk assessment identifies potential hazards to ensure guest safety and enhance their experience.

Operational Continuity

Our planning strategy helps manage risks related to supply chain disruptions and seasonal fluctuations.

Regulatory Compliance

We audit your operation and processes to ensure adherence to health and safety regulations, reducing legal liabilities.

Reputation Management

We educate employees on safeguarding the business's brand reputation by offering practical tips to showcase their commitment to sustainability.

WHY CHOOSE US?

We recognise the increasing pressure organisations face in having to ensure the safety, reliability, and sustainability of their products and services.

Our E-Risk360 experts have extensive experience and capabilities to help alleviate compliance bottlenecks - and in doing so, our goal is to:

- Reduce the cost of errors/re-work (ie defects, non-conformances, customer complaints)
- Reduce the time spent on compliance (ie with operational licenses, permits)
- Operate efficiently and plan with peace of mind
- Free up internal resources, refocus and empower staff, so more time can be spent on value generating activities
- Avoid costly penalties by reducing operational risks (occupational health and safety, environmental (ie reduce wastage)
- Open new doors and improve speed to market
- Think out of the box, with a continuous improvement and innovation mindset, staying ahead of the technologies
- Keep customers happy
